

Norway Grants and Innovation Norway

Innovation Norway

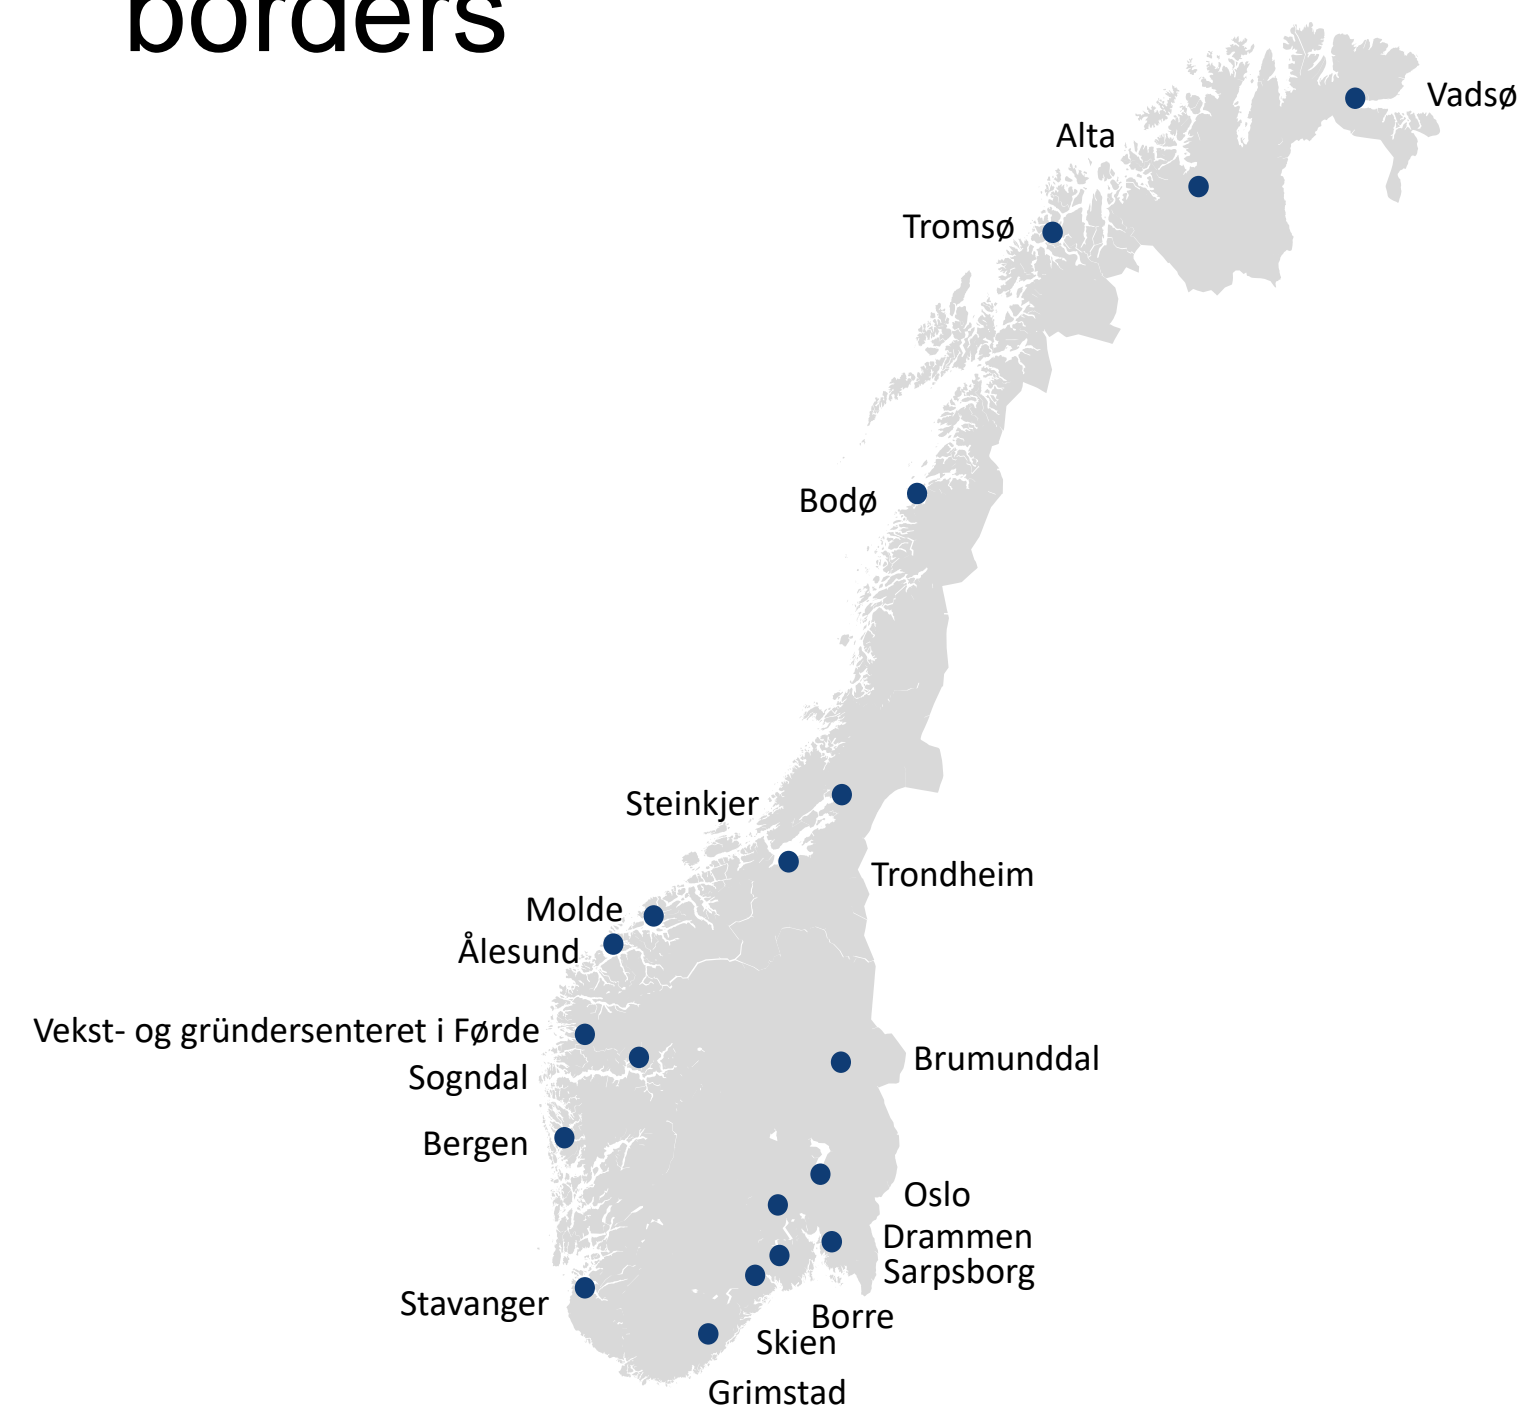

Innovation Norway is the Norwegian Government and regional authorities' main instrument for realising value-creating industrial and commercial development throughout the country

Innovation Norway aims to stimulate commercially and socio-economically profitable business development, and realise the commercial potential of the regions

We give local ideas global opportunities

We connect people, businesses and environments with ideas, knowledge and capital across borders

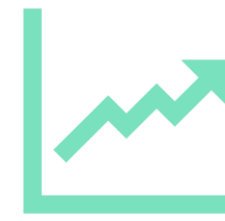

Our goals

More successful entrepreneurs

Our regional offices are actively involved in building stronger structures for innovation and entrepreneurship in the different regions in Norway.

More companies with growth potential

Norwegian economic restructuring depends on more companies growing and scaling successfully.

More innovative business clusters

Companies that participate in networks and clusters experience more growth, are better at collaborating and utilize more instruments compared to other companies that don't use Innovation Norway's services.

A holistic service offering
that supports companies
through the entire **customer
journey**
